subject: Results FY 2020 and results 1H2021

Dear all,

We are a group of Belgian shareholders, often present from the early hours.

Last year, financial results of FY 2019 were announced on 2/3/2020.

Today we are 10/03/2021 and we still do not have any view on the date of communication of the results of FY 2020.

On the website we can see:

- Full Year 2020 results – 29 March 2021 (TBC)
- Half Year 2021 results – TBC

Most of the serious companies on the stock market communicate their financial calendar months/years in advance and we believe it is a good practice.

Would be great if Acacia Pharma would introduce also this good practice.

With best regards,

ABC
